## PROFESSIONAL SUMMARY

Full Stack Developer skilled in JavaScript (ES6+), Node.js, Express.js, React.js, and MongoDB. Experienced in building and deploying responsive, scalable web applications with RESTful APIs, authentication, and database integration. Quick learner with strong debugging, problem-solving, and teamwork skills & passionate about delivering clean and efficient code.

---

## TECHNICAL SKILLS

Languages: JavaScript (ES6+), Java (Basic), SQL

Frontend: HTML, CSS, Bootstrap, React.js(Basic)

Backend: Node.js, Express.js

Databases: MongoDB, MySQL

Other Tools & Concepts: RESTful APIs, Authentication (Session), JSON, Git/GitHub, Deployment (Vercel)

Soft Skills: Problem-Solving, Adaptability, Collaboration, Critical Thinking

---

## PROJECTS

### MovieVerse – Dynamic Movie Landing Page

- Created a responsive, cinematic landing page using HTML, CSS, and JavaScript.
- Displayed trending movies using dynamic components and animations.
- Optimized performance and layout for different screen sizes using Flexbox and Grid.

### ModeLuxe – Fashion & Modeling Agency Website

- Designed a mobile-first website using HTML, CSS, and JavaScript with an intuitive interface.
- Implemented responsive layouts and optimized loading times for smooth performance.
- Added interactive elements like sliders and form validation to enhance UX.

### iPhone Product Page

- Recreated Apple's iPhone page using HTML, CSS, and JavaScript.
- Integrated animations, scroll effects, and responsive layouts using Flexbox & Grid.
- Focused on clean structure and optimized performance for smooth browsing.

### RentNest – Property Listing Platform (Ongoing)

- Building a property listing platform allowing users to register, log in, and search for properties.
  - Using MongoDB for efficient data storage and EJS for dynamic content rendering.
  - Implementing authentication and search features, with plans to integrate React frontend.
  - Focusing on secure backend logic and future deployment on Vercel.
- 

## EXPERIENCE

### Web Development Intern - InternPe – September 2024 – October 2024

- Developed a multi-user notes management system using Node.js, Express.js, EJS, and MongoDB.
  - Allowing users to securely create, view, edit, and delete their personal notes.
  - Implemented CRUD operations and RESTful APIs for user-specific note management.
  - Added session-based authentication for secure login and logout functionality.
  - Designed a clean, responsive UI using Bootstrap and EJS templates for dynamic rendering.
- 

## EDUCATION

Bachelor of Engineering (B.E.) – Information Technology

Shree L.R. Tiwari College of Engineering, Mumbai University

CGPA: 7.3 | (July 2022 – June 2026)

Higher Secondary Education (Class XII): 72% (May 2021 – March 2022)

Secondary Education (Class X): 74.67% (May 2019 – March 2020)

---

## CERTIFICATIONS

- Ethical Gen AI in Software Engineering – Simplilearn SkillUp

Learned responsible use of generative AI, emphasizing transparency and fairness in software projects.
