PROFESSIONAL SUMMARY

Full Stack Developer skilled in Java and JavaScript (ES6+) with experience in building dynamic and scalable web applications. Proficient in frontend technologies including HTML, CSS, RESTful APIs, EJS, and Bootstrap, and experienced in backend development using Node.js and Express.js. Well-versed in database management with MongoDB and MySQL, and comfortable using tools such as Visual Studio Code, Git, GitHub, and npm. Strong foundation in problem-solving, adaptability, critical thinking, and project management, with the ability to deliver clean, efficient, and maintainable code.

TECHNICAL SKILLS

- **Languages:** Java, JavaScript (ES6+) , SQL
- **Web Technologies:** HTML, CSS, Bootstrap, RESTful APIs, EJS
- **Frameworks:** Node.js, Express.js, React
- **Tools:** Visual Studio Code ,GitHub, Git , npm
- **Databases:** MongoDB, MySQL
- **Soft Skills:** Problem-Solving, Adaptability, Critical Thinking, Project Management.

PROJECTS

ModeLuxe: Fashion & Modeling Agency Website

Developed a modern, responsive website for a fashion and modeling agency with polished layouts and mobile-first design principles. Built reusable sections to highlight models, services, and contact forms, ensuring consistent branding and smooth navigation. Optimized page load times with efficient asset management and applied SEO best practices for greater visibility. Incorporated parallax scrolling, smooth transitions, and a visually appealing interface to deliver a premium user experience.

MovieVerse: Movie Landing Page

Created a fully responsive landing page to showcase trending and featured movies with engaging visuals and animations. Applied modern layout techniques using Flexbox and Grid, and implemented reusable UI components for maintainability. Focused on frontend performance by optimizing images and scripts, which improved Lighthouse scores and reduced load times. Enhanced user interaction with hover effects, micro-animations, and a clean codebase designed for scalability.

RentNest: Property Listing Platform (ongoing)

Built a full-stack rental platform enabling user registration, authentication, and property listings with search functionality. Leveraged MongoDB and RESTful APIs for secure data management, while implementing password hashing with role-based access control to enhance security. Used EJS for server-side rendering and optimized queries to improve performance. Deployed the application on Heroku with production-ready configurations, ensuring smooth scalability.

EDUCATION

Secondary Education (Class X): 74.67%	(May 2019 – March 2020)
Higher Secondary Education (Class XII): 72%	(May 2021 – March 2022)
Bachelor of Engineering (BE) – Information Technology	(June 2022 – June 2026)

Shree L.R Tiwari College Of Engineering , Mumbai University: CGPA 7.3

CERTIFICATIONS

Ethical Gen AI in Software Engineering – Simplilearn SkillUp (Aug 2025)

Learned responsible use of generative AI, focusing on fairness, transparency, and deployment in software Engineering
