TECHNICAL SKILLS

- Languages: Java, JavaScript (ES6+)
- Web Technologies: HTML, CSS, Bootstrap, Tailwind CSS
- Frameworks: Node.js, Express.js, React.js, Mongoose
- Tools: GitHub, VS Code, MongoDB Atlas
- Platforms: AWS, Netlify, Firebase
- Soft Skills: Problem-Solving, Adaptability, Critical Thinking, Project Management.

PROJECTS

ModeLuxe: Fashion & Modeling Agency Website | HTML, CSS, JavaScript
- Built a fully responsive website with mobile-first layouts, polished styling, and smooth navigation.
- Designed reusable sections to showcase models, services, and contact forms, ensuring consistent branding.
- Enhanced performance with optimized assets, SEO best practices, and parallax/transition effects for a premium user experience.
- Incorporated cross-browser compatibility and accessibility features to broaden user reach.

NotesApp: Multi-User Notes Application | Node.js, Express, MySQL, EJS, Bootstrap
- Built a notes app with login/signup, user-specific dashboards, and full CRUD functionality.
- Implemented secure session-based authentication and persistent data storage in MySQL.
- Developed RESTful routes and a responsive UI with Bootstrap, managing code with Git/GitHub.

RentNest: Property Listing Platform (Ongoing) | Node.js, Express, MongoDB, EJ
- Built a rental platform with user registration, authentication, and property listings with search functionality.
- Implemented password hashing, role-based access control, and RESTful APIs for secure data management.
- Used EJS for server-side rendering and optimized MongoDB queries for better performance.
- Designed intuitive dashboards for property owners and renters to enhance usability.

EXPERIENCE

Web Development Intern - InternPe - (Sept 2024 – Oct 2024)
- Built a Notes Application with login/signup, CRUD operations, and user-specific dashboards using Node.js, Express.js, EJS, and MySQL.
- Implemented session-based authentication to manage user login states securely.
- Stored user accounts and notes in MySQL, ensuring persistent, multi-user data management.
- Developed RESTful routes for notes management and integrated a responsive, premium UI using Bootstrap.
- Managed project code with Git and GitHub, following clean coding and version control best practices.

EDUCATION

Secondary Education (Class X): 74.67% - (May 2019 – March 2020)

Higher Secondary Education (Class XII): 72% - (May 2021 – March 2022)

Bachelor of Engineering (BE) – Information Technology, Mumbai University: CGPA 7.168 - (June 2022 – June 2026)

CERTIFICATIONS

Ethical Gen AI in Software Engineering – Simplilearn SkillUp (Aug 2025) – Learned responsible use of generative AI, focusing on fairness, transparency, and deployment in software engineering.

Extra-Curricular Skills

- **Design & Media:** Skilled in graphics, video editing, photography, and social media management to deliver creative and engaging content.
- **Content & Code:** Strong in digital creation and problem-solving, with the ability to design and code user-focused solutions.
